MARKET STILL DROOPING. Buyers Lack Encouragement to Take

the Initiative. New York, Jan. 11 .- The drooping tone of the stock market persisted to-day in spite of a few points of resist-ance to the prevailing downward tenday in spite of a few points of resistance to the prevailing downward tendency. Encouragement seemed to be lacking for taking the initiative on the buying side, and when the periodical selling movements died down the market fell into neglect and showed little rallying power. Some of the severest declines were effected on comparatively light sales, especially in the class of stocks that is usually neglected, but of which many have been pushed forward recently in speculative advances. Apparently the rumors which were instrumental in bringing about such advances fell into discredit and efforts to market small lines of stock developed an insignificant demand. In the Wabash-Pittsburg and Wheeling and Lake Erle group the collapse in prices demonstrated a feeling of keen disappointment with the reported terms of reorganization and combination of the two properties by exchange of present securities for new, coupled with cash assessments. The reorganization plan seemed to cause dissatisfaction to reessments. The reorganization plan med to cause dissatisfaction to reseemed to cause dissatisfaction to recent speculative buyers of the Wabash stocks as well, and they were inclined to run off sharply in consequence. In other directions there was a persistent selling pressure, mostly unexplained, but which served to discourage accumulation of stocks or efforts to bid prices up while it continued. In seeking an explanation of this selling, rumor turned back to the Rock Island market episode and the results which are to follow from the investigation by the stock exchange authorities. The by the stock exchange authorities. The report made by the investigating committee to the board of governors of the stock exchange comes before that body tomorrow. It is expected that disciplinary action will be taken. It was alleged that much of the important plinary action will be taken. It was alleged that much of the important selling today and for several days past was traceable to sources identical with the buying orders which were responsible for the convulsive 31 point jump in Rock Island on the Monday after Christmas, which was followed by an entire relapse, all within lifteen minutes. The evidence of retirement from the market of large commitments in this connection is of additional sentimental effect on the tone by reason of the large share attributed to the same interests in the general market campaign for some time past. The beginning of the fortnightly stock market settlement in London revealed a considerable extension of the account in Americans which was supposed to be due to transfer of speculative holdings from New York to London. The carry-over rate was called stiff in consequence. The New York call loan market is still reluctant to yield to the effects of the usual factors of relaxation after the turn of the year. Deferred requirements of syndicates in underwriting securities or in financing the heeds of corporations are given as explanation for the unseasonable be-

underwriting accurities or in financing the needs of corporations are given as explanation for the unseasonable behavior of the money market. It is observable also that a large number of enterprises are being undertaken through the country in connection with which bonds and stock issues are offered here and elsewhere without appearing in the stock exchange dealings at all. Various combinations of light and traction and telephone companies and irrigation projects are examples of the demands of this sort on the common supplies of the money market. The reports of a conference at Washinston between government officials and officials of the Union Pacific and Southern Pacific gave rise to conjectures of a possible compromise of the government's suit against these companies under the anti-trust law and

Can't Pool Receipts. Though some of the directors of the Connecticut league have been fear-ful that Jim O'Rourke will get through his pet project of pooling hol-iday receipts in the Connecticut league there appears no chance now for the Bridgeport magnate to force such a scheme to a consummation this year. The league constitution, drawn up by O'Rourke himself, expressly makes O'Rourke himself, expressly makes such a move out of the question, as nothing but a unanimous vote could cause the league to depart from the ble at the Indianapolis fair grounds.

Pop Rising Missing.

One familiar figure who will be among the missing in Connecticut league baseball next season is Percival (Pop) Rising, the hard hitting outfielder of the Springfield Ponies for the past three years. Rising has been in the league almost as long as Jerry Connell and Hi Ladd, having spent several seasons at New London before joining the Ponies, Pop's departure will be somewhat of a relief to the pitchers, as he broke up many a game during his sojourn in the huckleberry belt.
